

## FIBER OPTIC TERMINAL BOX

FC-44-OTB-I2A | FC-44-OTB-I2B

### Series Overview

The FiberCore FC-44-OTB-I2 Series is a versatile line of indoor fiber optic face plates and terminal boxes engineered for efficient end-user terminations across residential, commercial, and mini-network environments. Designed for wall or floor mounting, each model supports essential fiber operations including splicing, cable management, and pigtail integration.

### Applications

- FTTH
- Optical communication system

### Product Introduction

## OTB 2 PORT FIBER PLATE LOADED TYPE A

Models: FC-44-OTB-I2A

### Product Overview

The FiberCore FC-44-OTB-I2A is a compact indoor fiber optic face plate designed for floor or wall mounting. Ideal for end-user fiber terminations, it supports fiber fusion, cable management, and pigtail integration, accommodating up to two SC simplex or LC duplex adapters within a clean 86×86×24.2 mm form factor.

### Features

- Compact and lightweight design for indoor use.
- Made of high-quality ABS plastic, flame-retardant and durable.
- Supports up to 2 adapters (SC simplex or LC duplex).
- Provides fiber splicing, patching, and storage in one unit.
- Easy installation with wall-mount design (screw or adhesive).
- Neat cable management with bend radius protection.

### Accessories

- Fiber splice protection sleeves
- SC/LC adapters
- Installation Kit-(Tox and Screws)

Dimension	Material	Color	Adapter Port	Fiber Type	Mounting
86x86x24.2 mm	ABS Plastic	White	2 Ports (SC simplex / LC duplex)	SM or MM	Wall-mounted

## FIBER OPTIC TERMINAL BOX

FC-44-OTB-I2A | FC-44-OTB-I2B

### Product Introduction

## OTB 2 PORT FIBER PLATE LOADED TYPE B

Model: FC-44-OTB-I2B

### Product Overview

The FiberCore FC-44-OTB-I2B is a compact indoor fiber optic face plate designed for floor or wall mounting. Tailored for end-user fiber terminations, it supports fiber fusion, pigtail management, and cable termination within a streamlined 85×85×25 mm form factor, ensuring efficient and reliable FTTH deployment.

### Features

- Compact and lightweight design for indoor use.
- Made of high-quality ABS plastic, flame-retardant and durable.
- Supports up to 2 adapters (SC simplex or LC duplex).
- Provides fiber splicing, patching, and storage in one unit.
- Easy installation with wall-mount design (screw or adhesive).
- Neat cable management with bend radius protection.

### Accessories

- Fiber splice protection sleeves
- SC/LC adapters
- Installation Kit-(Tox and Screws)

Dimension	Material	Color	Adapter Port	Fiber Type	Mounting
85x85x25 mm	ABS Plastic	White	2 Ports (SC simplex / LC duplex)	SM or MM	Wall-mounted

### Ordering Information

Description	Part No.
OTB 2 Port Fiber Plate Loaded Type A	FC-44-OTB-I2A
OTB 2 Port Fiber Plate Loaded Type B	FC-44-OTB-I2B
